WESTEM PORTRAITS

A FRAMEWORK FOR ACTION TO HIGHLIGHT
ROLE MODEL WOMEN IN STEM

WESTEM PORTRAITS

A FRAMEWORK FOR ACTION TO HIGHLIGHT
ROLE MODEL WOMEN IN STEM

The WESTEM Portraits is the framework that ties together the results of the Erasmus + WESTEM project. Its importance lies in its aim of bringing together the discussion of women in STEM and highlight women from different cultural and socio-economic backgrounds as role models for girls who want to pursue a career in STEM.

WHAT IT IS ALL ABOUT

To achieve this, the framework describes a series of strategies for increasing communication and collaboration between female students, faculty members, and administrative staff, enabling their interaction with female professionals successful in STEM domains.

You can retrieve your copy of the complete WESTEM PORTRAITS framework [here](#).

WESTEM MENTORING

A MANUAL FOR MENTORS AND MENTEES

This is a guide through the information and steps of the mentoring program for women in STEM. This manual describes the most relevant steps on the process, to guide the mentors and mentees as well as to serve as inspiration for others who would like to contribute to the empowerment and encouragement of women in STEM.

To become a mentor or mentee, join our Discord community [here](#).

WHAT IT IS ALL ABOUT

The intention of the mentoring programme is to provide a direct link between influential female mentors and mentees while encouraging the mentees to pursue tertiary education in STEM studies and career paths.

You can access the complete WESTEM MENTORING manual [here](#).
