WESTEM PORTRAITS

A FRAMEWORK FOR ACTION TO HIGHLIGHT ROLE MODEL WOMEN IN STEM

WESTEM PORTRAITS

A FRAMEWORK FOR ACTION TO HIGHLIGHT ROLE MODEL WOMEN IN STEM

ESTEM

The WESTEM Portraits is the framework that ties together the results of the Erasmus + WESTEM project. Its importance lies in its aim of bringing together the discussion of women in STEM and highlight women from different cultural and socio-economic backgrounds as role models for girls who want to pursue a career in STEM.

WHAT IT IS ALL ABOUT

To achieve this, the framework describes a series of strategies for increasing communication and collaboration between female students, faculty members, and administrative staff, enabling their interaction with female professionals successful in STEM domains.

You can retrieve your copy of the complete WESTEM PORTRAITS framework <u>here</u>.
